MAJORITY OF SHARES HIGHER ON NEW YORK STOCK EXCHANGE.

Quotations Fluctuated Irregularly and Shorts Became Nervous-Local Wheat in Demand.

At New York, yesterday, money on call was easy at 1402 per cent.; last loan, 14;

closed, 11/2. Prime mercantile paper, 32765 per cent. Sterling exchange barely steady, with actual business in banker's bills at \$4.89460 4.89% for demand and \$4.88%@4.88% for sixty days; posted rates, \$4.881/4@4.891/4 and \$4.90@ 4.9014; commercial bills, \$4.871/64.87%. Silver certificates, 674@67%c; sales, \$20,000;

bar silver, 67%c: Mexican dollars, 53c. Total sales of stocks were 219,267 shares, including: American Sugar, 22,800; American Tobacco, 7,900; Chesapeake & Ohio, 2,900; Chicago Gas, 3,800; Whisky Trust, 2,500; General Electric, 3,500; Manhattan, 3,000; New Jersey Central, 10,600; Northwest, 4,200; Reading, 30,800; St. Paul, 12,300; Silver Certificates, 20,000; Southern Railroad, 10,800; Southern Railroad preferred, 3,800; United States Leather, 4,900; United States Leather exerered, 4,400; Wheeling & Lake Erie, 4,000.

The stock market was moderately active yesterday and, although somewhat irregular, prices in a majority of cases recorded an advance on the day's transactions. Speculation was active at the opening and gains were made of 11/4 in New Jersey Central and Tobacco and a fraction in grangers, exceptions being Reading, 1/8@%, and the Cordages selling off %@%. The depressions in these stocks were soon communicated to the rest of the list. New Jersey Central reacted 1%, National Lead 1 and the general list, 1/20% per cent. Some of the specialties were exceptions, Canada Pacific and Rubber gaining 1½ and Baltimore & Ohio and Delaware & Hudson, 1¼, the latter, however, quickly losing the improvement. Toward noon the shorts began to cover and the noward movement was resumed and reacted. ward noon the shorts began to cover and the upward moorement was resumed and was continued in force during the afternoon with occasional reactions. As a rule the fluctuations in the active list were narrow, the features of the speculative list being Manhattan, Leather preferred and Tobacco, and other of the speculaties in lesser degree. Reading was also bought heavily and sold up to 164, with a reaction to 15%, and a final raily of 4 per cent. The market was decidedly strong at the close and, in the main, 346334 per cent, higher, the latter, Leather preferred.

The bond market was active and generally higher throughout the day. The Northern Pacific issues were animated and higher and figured for \$509,000 in a total of \$2,656,000. A block of \$100,000 St. Paul fours, series A, brought 90. The more important gains are: Richmond & Danville equipment fives, 5 per cent.; Kings County Elevated firsts, Southwestern extension, 2½; Union Pacific, Denver & Gulf firsts, 2.

LOCAL GRAIN AND PRODUCE.

In Most Lines Trade Reaching Ex-

pectations-Prices Steady. sale merchants is to the effect that the volume of business in progress is very near their highest expectations, when the eneral conditions are considered. On Commission row there is still some complaint that business is not what it should be, but the stocks they are carrying and the high prices ruling are grounds for trade to be below the usual volume. In a few days strawberries, new potatoes and many other articles which come into daily consumption will be on the market, and commission men will have their opportunity. Grocers are very busy; prices steady on staples. Hide, leather and flour markets are all active, with firm and advancing ten-

dency to prices. The local grain market the last day or two has been hardly as active as in the

STIFF BUSINESS TONE

INCREASED PRICES OF STAPLES LAST WEEK CONTINUE WELL.

Both Dun & Co. and Bradstreet Issue Reviews of Trade, Making the Outlook More Encouraging.

NEW YORK, April 26 .- R. G. Dun & Co.'s weekly review of trade, which issues tomorrow, will say: Neither the rising speculative markets nor the steady gain in industhere are fewer signs of hesitation in the productive industries than in speculative prices. Wage strikes grow more numerous and cause some trobule and retail demand lags behind wholesale and jobbing purchases behind production in some branches, but through many conflicting reports the fact shines out that the industries are gaining, not with a rush and a whirl, but more creasing their earnings or that overproduction of cotton will be cured by advance of 1%c in price, or that cornering the large surplus. But revival of activity in all these directions helps confidence to take the throne so long held by distrust. Cotton mills are getting more money for goods and have quite generally advanced wages. Consumption of Northern spinners at the maximum would be in eight months 1,350,000 bales, but they have actually taken 1,350,000 and have a profit on 600,000 bales controlled of over \$4,000,000. The consumption is large and advances seem to be warranted. Iron production, stimulated because ore, coke and oil were to be dearer, is retarded by shrinking demand for products, for on the whole new business is said to be smaller than in February and March. The structural demand for buildings ucts, for on the whole new business is said to be smaller than in February and March. The structural demand for buildings throughout the country was never larger, the frenzy in oil has started a large demand for pipe and sheets at slight advance. Ralls are stagnant, though a shade better at Chicago, wire for fencing, for nails and wire rods are so dull as to be scarcely quoted, and bar, though lifted a shade, meets no increased demand. Bessemer pig is lower and sales of Southern pig in Northern markets have been large at 25c advance. Finished products are nearly all at their lowest price.

lowest price.

Wool has sold at the lowest price on record this week, 16c for Ohio and 9c for Texas, and offers to clear off stocks before new and offers to clear off stocks before new supplies come forward tempt manufacturers to purchase beyond present needs. Sales of foreign, 8,117,300 lbs in three weeks of April, against 9,292,500 lbs domestic, make the total 17,409,800 lbs, against 15,906,100 lbs in 1892, and less, of course in 1893 and 1804. Demand for dress goods continues large and improving that uncertainty in men's goods. ontinues and is somewhat increased by more numerous strikes. Colored flannels are from 5 to 1½ per cent. ower, and an auction sale is to be held, and lower, and an auction sale is to be held, and some irregularity appears in prices for fancy goods. Higher prices for wheat, nearly 3c above last week, tend to theck Atlantic exports, which, flour included, were only 1,868,873 bu for the week, against 2,620,445 last year, though for the previous two weeks about equal to last year's.

Cotton touched 7c, receding to 6.93c. About 9,312,306 bales had come into sight last week and British exports of goods were 120,000,000 yards less in the first quarter this year than last. With such facts the rise does not help to lessen Southern acreage. The failures for the week have been 230 in the United States, against 179 last year, and thirty-seven in Canada, against twenty-six last year.

Bradstreet's Review of Trade. NEW YORK, April 26.-Bradstreet's tois the continued strength of prices of staples after the striking advances of preceding weeks. There is a firmer undertone in nearly all lines of trade, but at a number of points gains in industrials are more marked than in commercial lines. The flurry in petroleum is succeeded by a very dull market. Woolen dress goods mills have secured a Woolen dress goods mills have secured a number of orders for fall delivery, which accounts for the moderate activity in the market for wool. Cotton goods are firm on the advance in cotton and higher wages paid Eastern mill operatives. About the weekly average of exports of wheat (including flour) from both coasts of the United States since Jan. 1 is reported this week—2,431,000 bt. This is a drop from the preceding week of 700,000 bt. In the fourth week of April one year ago the total export was 2,727,000 bt. In 1893 it was 2,507,000 bt., and in 1892 3,259,000 bt. In the like week of 1891 the corresponding total was 2,300,000 bt. At the West, with favorable weather, although collections are low, the volume of ousiness remains unchanged, except Cincinnati, where there has been a better demand, and at St. Louis, where the request s quite active in dry goods, millinery and

for cattle and hogs.

Jersey Widow Murdered. PHILLIPSBURG, N. J., April 26.—The body of Mrs. Mary Blackwell, aged forty-seven years, widow of the late Dr. Blackwell, of Madison, N. J., was found in her home at this place last night with a bullet hole in the right temple and a revolver, from which one shot had been fired, lying beside her. It is alleged that the woman had been living a double life, and that Samuel Carpenter, who recently moved from uel Carpenter, who recently moved from Asbury, N. J., to Easton, Pa., was her paramour. The body was in a nude condiparamour. The body was in a nude condi-tion. Death must have been instantaneous, as there was no evidence of a struggle. Suspicion at once rested on Carpenter, of whom the dead woman was said to have been very much afraid. The accused was arrested early this morning at his home in Easton. He denied all knowledge of the crime, but admitted having called on Mrs. Blackwell at her home last night.

Evidence that the Bears Have Fallen Into Their Own Trap-Provisions Range Higher.

CHICAGO, April 26.-After an early dip of 1/2c on the rains, wheat advanced sharply to-day on reports of heavy buying for export, and with shorts covering vigorously July close 11ch higher. Corn gained 14c, July oats 4c and provisions closed slightly higher.

The weather map showed a moderate rainfall, with a prediction of more rain and of a more general character in the winter wheat belt to-day and to-morrow. A number of the local speculators were waiting for rain as an assurance that wheat would certainly be a sale for to per bushel on its appearance and that contingent of the crowd were free sellers at the opening from 1400 %c below the closing price of the preceding session. The demand at the concession surprised the sellers and in a few minutes the latter were clamoring to get their wheat back at 16c per bushel more than they had sold at. There were numerous buying orders at the opening, from New York, and those were reported to be in consequence of similar orders received from the United Kingdom. The foreign markets were all higher. Liverpool bids to New York exporters were at an advance from yesterday of %c per bushel and advices from there were that the movement of wheat from La Plata was practically over for the season. The latter being very important, if true. and it came from a highly respectable source, had double this to do with the strength which succeeded the early weakness here. About two hours from the opening New York crowded the wires with dispatches stating that there was a good inquiry there from exporters, and followed that up by advising sales of about thirty boatloads, twenty of them for Liverpool. July wheat, which sold at the opening as low as 60%c, and had risen gradually to 61%c, spring to 62%c on the export low as 60%c, and had risen gradually to 61%c, sprung to 62%c on the export business reported from the seaboard. The domestic movement for the day was anything but bullish. The total received at the primary Western markets were 229,000 bushels, compared with 198,000 bushels on the corresponding day of the year before. The Atlantic seaboard exports amounted to only 2,000 bushels of wheat and 27,000 barrels of flour. The number of boatloads taken in New York was swelled indefinitely by the rumor here before the close and it became known that some portion of the New York sales were filled here. Norton and Worthington worked 90,000 bushels here from direct export to I rerpool and one or two other cargoes in addition to that were reported to have been disposed of, but could not be traced to a confirmation. The shorts became very much alarmed by those reported cash sales and ran the price of July wheat up to 62%c, and it was still bringing 62%662%c at the close.

The corn market was weak at the opening on account of the heaviness in wheat. The rains were also conducive to the comfort of the shorts, but with the great improvement in the demand for wheat, which so quickly sprang up, the shorts began to feel less comfortable and, like their neighbors in the wheat pit, they were soon buying back their rainy weather corn at a loss. Business was rather light and, in the end, the price of May and July closed at 47½c for the former and 48c for the latter, which was the highest price of the day. Receipts to-day were 284 cars.

Oats were active and about steady. Early Oats were active and about steady. Early in the session prices ruled a shade lower, influenced by free offerings. Later. however, buying was good and that, with the strength in wheat, caused values to rally. July was especially strong, being wanted, principally. May started at 28%c, sold up to 29c and closed at 28%c bid. July sold from 28%c to 28%c and closed %c higher at 28%c and 28%c.

The provision trade was moderately active The provision trade was moderately active in spots during the remainder of the session. Only 16,000 hogs were received to-day and but 8,000 are estimated as the run for to-morrow. Opening bids were at yesterday's closing prices and the first trade was at the lowest value of the day. After an advance of 12½c, July pork closed with a net gain of 5c. Lard, in the end, was unchanged. Estimates for to-morrow—Wheat, 60 cars; corn, 265 cars; oats, 230 cars; hogs, 8,000 head.
